

**US Army Corps
of Engineers®**

Sheboygan Harbor, WI

Harbor Features

- Located on the west shore of Lake Michigan about 26 miles south of Manitowoc and about 55 miles north of Milwaukee, WI.
- Authorization: River & Harbor Act of 2 Mar 1907.
- Commercial harbor that currently serves primarily recreational boat traffic.
- Project depths range between 15 - 25 feet.
- More than 6,300 feet of breakwater and pier structures.
- Approximately 4,000 feet of maintained channel.
- Dredged material is placed on the beach as beach nourishment, and upland as needed.
- Major stakeholders include the Wisconsin DNR, City of Sheboygan and various charter and sport fishing interests.

Project Needs

- Maintenance dredging required on a three to five year cycle.
- Navigation structures are primarily maintained by Government floating plant.

Consequences of Not Maintaining the Project

- Loss of jobs locally.
- Loss of recreational and charter fishing in the area.

Transportation Importance

- This project serves as a harbor of Refuge as well as charter fishing and recreational navigation interests.
- The harbor community has established a significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
